

1PC HWCT004 Micro Precision Current Transformer 50A/50MA Mini Current Sensor CT

Description

main specifications:

Input: 50A

Output: 50MA

Load: $\leq 50 \Omega$

ratio error: $\leq 0.1\%$

Phase difference: $< 20^\circ$

The linear range: 5%-120%

Dielectric strength: 1000M Ω /500V/min

Operating temperature: -25 ~+75 centigrade

Storage temperature: -40 ~+80 centigrade

Case material: flame retardant PBT/ environmental friendly flame retardant ABS

Product application:

Applicable to electric network instrument, transducer, current meter, measurement control device.
